Joshua Lederberg, Associate Professor of Genetics,  
The University of Wisconsin,  
College of Agriculture,  
Madison 6. Wisconsin.

Dear Professor Lederberg,

Thank you for your kind letter of February 20. It is  
of course always a great pleasure to understand that old things  
are being used also to-day, and I am only pleased to be in any  
way of value for you. My Librarian did not like taking it out  
of one of our last yearbooks, but gave up her resistance.

With kindest regards,

yours sincerely

*J. Ørskov*
